

# The Sunset of Integrated Regional Water Management?

Ann DuBay  
Sonoma County Water Agency  
Policy Review Panel  
January 19, 2018

# IRWM is successful!

- \$1.3 billion state grants + \$4.2 billion in local investment
- 840 projects
- More water supply, better water quality, less water demand
- Improved flood protection, ecosystem preservation and enhancement

# NRCP is REALLY successful!

- 90+ projects
- \$65 million in state funds + more than \$100 million in local
- 14:1 benefit/cost ratio for benefits that can be monetized
- Collaborative partnerships on water and energy management
- Innovative solutions to intractable problems

# What's the Problem?

YEAR	MEASURE	FUNDING
2002	Proposition 50	\$500 million
2006	Proposition 84	\$1 billion
2014	Proposition 1	\$512 million
2018	SB 5	\$0
2018	Water Bond	\$5 million

# 2018 Measures

# What's the Matter with IRWM?

- Doesn't "poll well"
  - Not project specific
- Troubled history in other regions
- State focus on groundwater implementation?

# What are the Implications?

Prop 1 fully  
appropriated in  
2020

Where will new  
dollars come from?

Partnerships require  
care and feeding...

# What Can We Do?

- Tell our story . . .

# Specific Actions for Discussion

- A Day in the Capital?
  - Advocate that \$240 million in Sect. 80146. (a) of SB 5 be allocated through IRWM program
  - Advocate for baseline funding
- Continue working with others
  - Roundtable of Regions
  - Water Bond Coalition
